Work Experience

Dell Company

Jan 2023 - present

Senior Software Developer

- Use my extensive experience with front end development to define the structure and components for the project, making sure they are reusable
- Keep the code quality high reviewing code from other developers and suggesting improvements
- Interact with the designer to suggest changes and to make sure the view he has about the design is translated into actual functionality
- Integrated AI-driven features, boosting user engagement.
- Built and maintained enterprise-level applications.

Microsoft Company

Nov 2019 - Dec 2022

Software Developer

3 years

- Develop web applications based on Sharepoint, Drupal 8, Salesforce and Episerver
- Lead a team of 10 front end developers, giving support to the client's multi-cultural team, providing feedback, clarifying requirements and helping with technical questions
- Keep the Project Manager and the IT Leads updated on the overall progress of the projects and manage the tasks distributed to the team
- Keep the code and the features implemented by the other developers in accordance to the requirements

GREE company

Aug 2018 - Nov 2019

Trainee Developer

1 year

- Design easy user interfaces and great user experiences for the digital platforms of small companies
- Wordpress development, including themes creation or customization, custom plugins development and training
- E-commerce maintenance with Fastcommerce, a Brazilian e-commerce platform
- Optimized backend APIs, improving response times by 40%.
- Integrate external services such as payment services, delivery, etc into Magento solutions

Key Projects / Involvements

- Prevented millions of dollars in state sales tax undercharges by initiating tests that revealed a bug in a new release of shopping cart software.
- Isolated previously undiscovered flaw in price checking tool resulting in more competitive pricing and a 20 percent increase in revenue.
- Implemented automated testing tools spawning more diligent levels of regression testing, negative testing, error/bug retests and usability.

Certificates and Awards

- 2020 - Certified Full Stack Web Developer
- 2020 - JavaScript Developer Certification
- 2021 - AWS Certified Developer – Associate
- 2021 - React Developer Certification
- 2022 - MongoDB for Developers
- 2024 - Hackathon Winner

Summary

I am a full stack web developer having expertise in frontend development and exposure to back-end development. I design and develop web applications using the latest technologies to deliver the product with quality code.

Career Objective

As a highly skilled and passionate Full-Stack Web Developer with over 6 years of experience, I am eager to leverage my expertise in both front-end and back-end technologies to build innovative, efficient, and scalable web applications.

Technical expertise

Next.js	<div></div>
JavaScript	<div></div>
Typescript	<div></div>
